

Spine working groups

Spacecraft Plasma Interactions Network in Europe

Goal

- ✓ Share data inside and outside the working group
- ✓ To track their softwares bugs and versions
- ✓ To be aware of what's going on ?
- ✓ To be aware of who is doing what ?

Working group managers

- ✓ The working group manager will take care of the web site organization of the data and the security.

Default security setting

- ✓ Base on 3 groups
 - ✓ Managers: ***Can create***
 - ✓ Members: ***Can use***
 - ✓ Observers: ***Can view***

Working group components

- ✓ An home page
- ✓ A forum
- ✓ A download area

SPINE

Owner of this Forum

(owner has all permissions)

The security rights are propagate to the child node

- ✓ This works for common rights
 - ✓ Create, Read, Update, Delete
- ✓ This doesn't work for specific rights
 - ✓ Upload
 - ✓ Create workspace, Commit
 - ✓ Post thread, Post message

Creating a resource

[List children](#) | [Edit this Wiki Page](#) | **[Create new Resource](#)** | [Wiki Page security](#)

Create new resource :

Resource type :

URI :

- ▼
- Project
 - Template
 - Timeline
 - Wiki Page**
 - Download Area
 - File
 - Forum
 - Messages Thread
 - Message
 - Group
 - So6 Queue
 - Bug Tracker
 - Issue
 - Remote Site
 - Survey
 - Mailing List

The things to do when creating a resource

- ✓ Choose the resource type
- ✓ Set the URI for that resource
 - ✓ You must have the right create on the parent node
- ✓ Edit the resource name
- ✓ Check it's security
- ✓ Use it...
